

QUERY RESOLUTION: EoI OF MULTI PURPOSE FORK LIFT TRUCK

| <u>Sl No</u> | <u>Para/ Clause No of EoI</u> | <u>EoI Parameter</u> | <u>Query/ Clarification Required</u> | <u>Response</u> |
|--|--------------------------------------|-----------------------------|---|--|
| <u>M/s Accurate Industrial controls Pvt Ltd</u> | | | | |
| 1 | Para 8 (b) of Appendix A | Capability | What is the maximum lifting capacity of MPFLT without stabilizers at full boom extension at 6m, as specified (as per para 8-b)? | Paragraph 8 (b) of Appendix A to EoI is amply clear. |
| 2 | Para 8 (c) of Appendix A | Capability | A min. Height of lift is specified as 3.7m. Request to provide the max. Height of lift, this will help for design optimization. | Paragraph 8 (c) of Appendix A to EoI is amply clear. |
| 3 | Para 17 (b) of Appendix A | Attachments | Request to provide details of sleeve for extension, since it is not the standard terminology. | It is a standard terminology. |
| 4. | Para 17 (f) of Appendix A | Man Platform | In EoI, the vehicle length is specified as 6m essential and 5m desired (para 16). However, in para 17(f) the reach of man platform specified is 3.7 m, request to provide clarity on this parameter for better understanding. | 3.7m is the vertical reach. |
| 5. | Para 26 of Appendix A | Axle | The Oscillating axle with 150 to 200mm oscillation with the auto-locking mechanism is specified. Request to provide details on this. | Paragraph 26 of Appendix A to EoI is amply clear. |
| 6 | | | Please provide details on Extension/ Retraction to EoI max. Boom angle speed. | All necessary parameters have been adequately brought out in Appendix A to EoI (In this connection Paragraph 27 also refers) |
| <u>M/s ACE Ltd</u> | | | | |
| 7. | Para 8 of EoI | Categorisation | Can the categorisation be Buy Indian? | Categorisation is in accordance with Chapter III of DAP 2020. |
| 8. | Para 2 (c) of EoI | MSMEs | Can presentation for MSMEs be re-considered? | Reservation for MSMEs in accordance with Chapter III of DAP 2020. |
